Precision® Controlled Drugs Rulers

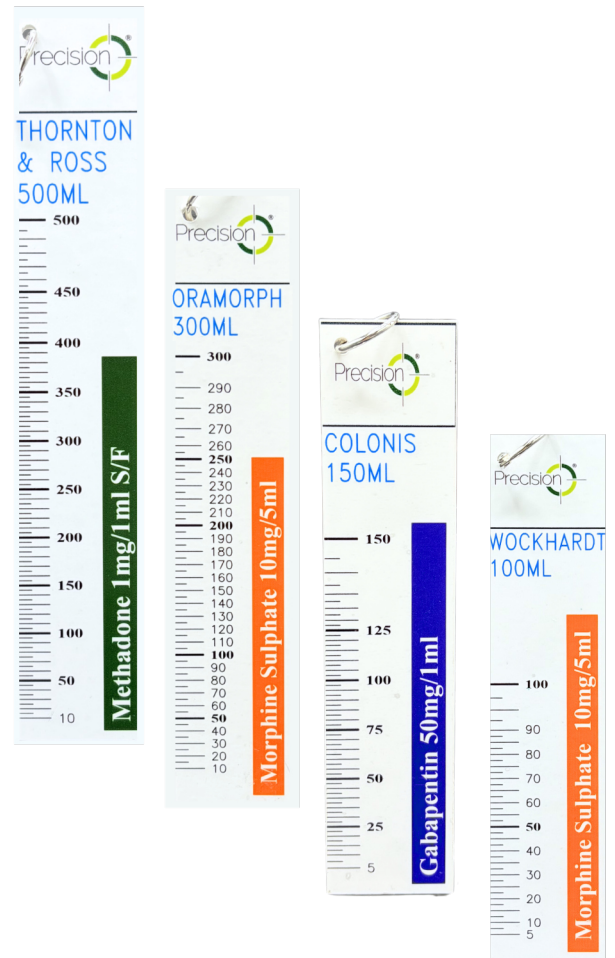

Simple Tools. Better Accuracy.

The Precision™ Measuring Ruler provides a simple, accurate and reliable way to monitor liquid stock levels quickly and safely.

Designed specifically for use in busy clinical environments, this innovative tool allows staff to check volumes instantly by aligning the ruler directly with the bottle.

Each ruler is created to provide quick, clear measurements while remaining durable and easy to use.

A strong metal ring allows multiple rulers to be clipped together for organised storage, making sure the right measuring tool is always easy to find.

- ✓ Instant volume checks – no need to pour liquid into another container
- ✓ Reduces product loss – minimises unnecessary handling
- ✓ Supports a sterile process – helps maintain a clean and controlled environment

- ✓ Saves time – ideal for fast-paced healthcare settings
- ✓ Improves stock accuracy – perfect for daily checks and routine audits
